

Under the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number.

REISSUE APPLICATION DECLARATION BY THE INVENTOR	Docket Number (Optional) SMIT26-00008
---	--

I hereby declare that:

Each inventor's residence, mailing address and citizenship are stated below next to their name.

I believe the inventors named below to be the original and first inventor(s) of the subject matter which is described and claimed in patent number 6,357,158, granted March 19, 2002 and for which a reissue patent is sought on the invention entitled Reticle-Equipped Telescopic Gunsight and Aiming System,

the specification of which

- is attached hereto.
- was filed on March 18, 2004 as reissue application number 10/803,812  
and was amended on \_\_\_\_\_  
(If applicable)

I have reviewed and understand the contents of the above-identified specification, including the claims, as amended by any amendment referred to above.

I acknowledge the duty to disclose information which is material to patentability as defined in 37 CFR 1.56.

- I hereby claim foreign priority benefits under 35 U.S.C. 119(a)-(d) or (f), or 365(b). Attached is form PTO/SB/02B (or equivalent) listing the foreign applications.

I verily believe the original patent to be wholly or partly inoperative or invalid, for the reasons described below. (Check all boxes that apply.)

- by reason of a defective specification or drawing.
- by reason of the patentee claiming more or less than he had the right to claim in the patent.
- by reason of other errors.

At least one error upon which reissue is based is described below. If the reissue is a broadening reissue, such must be stated with an explanation as to the nature of the broadening:

This is a broadening reissue. The patentee claimed less than he was entitled to claim given the inventive concept of the disclosure and the prior art. In particular, and without limitation, the range-marker indicia on the reticle below the center horizontal hairline need not be exactly four in number, need not all comprise horizontal lines, and need not all comprise horizontal lines of sequentially incremental length. The invention may be employed with two or three range-marker indicia. The invention may alternatively be employed by providing horizontal lines for less than all of the range-marker indicia, using other features of the lines on the reticle (such as the innermost end of the bottom post on the vertical hairline) for at least one of the range-marker indicia. The invention may still further be employed with less than all of the range-marker indicia having a sequentially incremental length (or a length corresponding to adjustment for a predetermined cross-wind at the corresponding range), such as by only one horizontal line having a length corresponding to adjustment for a predetermined cross-wind at the respective range. Still further, another aspect of the invention includes use of the range-marker indicia, together with other features of markings on the reticle, for range estimation as well aiming.

This collection of information is required by 37 CFR 1.175. The information is required to obtain or retain a benefit by the public which is to file (and by the USPTO to process) an application. Confidentiality is governed by 35 U.S.C. 122 and 37 CFR 1.14. This collection is estimated to take 30 minutes to complete, including gathering, preparing, and submitting the completed application form to the USPTO. Time will vary depending upon the individual case. Any comments on the amount of time you require to complete this form and/or suggestions for reducing this burden, should be sent to the Chief Information Officer, U.S. Patent and Trademark Office, U.S. Department of Commerce, P.O. Box 1450, Alexandria, VA 22313-1450. DO NOT SEND FEES OR COMPLETED FORMS TO THIS ADDRESS. SEND TO: Commissioner for Patents, P.O. Box 1450, Alexandria, VA 22313-1450.

If you need assistance in completing the form, call 1-800-PTO-9199 and select option 2.

Under the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number.
